

TABLE OF CONTENTS
(Part II)

Page No.

MEASLES

Epidemiological Characteristics of Measles in West and Central Africa-----	4
Measles in Douala-----	9
Bouar Measles Epidemic, Central African Republic-----	15
Measles in Lagos, Nigeria-----	19
Measles Epidemic Near Salo, Central African Republic-----	27
Measles in Areas of Malnutrition-----	30
A Comparison of Measles Virus Vaccines-----	37
Measles Vaccination with Reduced Dosage-----	40

*Cameroon
C.A.R.
Niger*

SURVEILLANCE

Smallpox Surveillance in the Strategy of Global Eradication-----	45
The Value of Surveillance Newsletters-----	53
The Surveillance System and Methods Used to Improve Reporting:	
I. Togo-----	58
II. Dahomey-----	60
III. Niger-----	63
Surveillance Techniques for Detecting Importations of Smallpox-----	66
Assessment of Surveillance Systems in West Africa-----	69
Summary-----	73

INTERCOUNTRY COORDINATION

Intercountry Cooperation and Coordination: An Overview-----	76
Proposals for Intercountry Coordination-----	78
Experiences in Upper Volta with Intercountry Coordination of Containment Activities-----	80
Benefits of Intercountry Coordination-----	82

ASSESSMENT

Principles of Assessment-----	86
Concurrent Assessment during the Smallpox Eradication/Measles Control Programme in Guinea, December 1967 through February 1969-----	90
Concurrent Assessment of the Smallpox Eradication Programme in the Mid-West State, Nigeria-----	97
Assessment in the Central African Republic-----	103
Assessment of Vaccination Coverage and Smallpox in Five Areas of West Africa: A Summary of Terminal Assessment Results-----	109
Summary-----	133

MAINTENANCE PROGRAMS

Introduction-----	138
Measles	
Measles Control in The Gambia-----	140
Urban Measles Control-----	145
The Measles Control Programme in Dakar, Senegal-----	149
Maintenance of Measles Control in Kano State, Nigeria-----	151
Measles Control in Areas of Low Population Density-----	157

*Nigeria
Cameroon*

	<u>Page No.</u>
Alternative Approaches to Measles Control Using Fixed Centres--	161
Theoretical and Practical Problems in Measles Control-----	165
Smallpox	
Smallpox Eradication in Africa: Principles for Acting in the Maintenance Phase-----	177
Maintenance of Smallpox Immunity Among the Nomads-----	181
Investigation of Imported Cases During the Smallpox Eradication Programme in Cameroon-----	183
Summary-----	188
 PROGRAMME OPERATIONS	
A Review of West and Central African Operations: Methods and Tactics-----	192
The Value, Efficiency, and Limitations of Collecting Points in Mass Vaccination Programmes-----	199
Comparative Advantages of the Jet Injectors and the Bifurcated Needle-----	205
Advantages and Disadvantages of Specialized and Multipurpose Medical Teams-----	208
Safety, Efficacy, and Priorities in Multiple Antigen Usage-----	213
Associated Vaccine Campaigns: Organization and Logistics-----	216
Programme Costs as Related to Vaccinations, Morbidity, and Mortality in The Gambia-----	221
Summary-----	224
